### Student Comments:

- I found your styles of grading to be very beneficial and I would suggest sticking with it!
- I really value the opportunities to retake quizzes multiple times, it has really helped me grasp the material.
- The grading system I feel was great. I would personally keep it.
- The grading style of this course was amazing, since it rewards effort and still encourages students to learn the material enough to get a full "pass" grade. The course was fair, challenging, and I learned a lot from it.
- Amazing teacher who has a lot of time for his students. Only suggestion is having the quizzes a little more evenly spread. For example, 2 quizzes every week and 3 instead of 5 as the exam day. He is very knowledgeable and kind and makes sure we understand everything.
- I believe that in the future, you should try giving the quizzes beginning of the class on Friday's. That way, the information for the quiz is fresh in our brains from studying and then we won't be worried about retaining what we studied while focusing on learning new content.
